DISCUSSION:

On March 2, 2011, the Commission reviewed and heard public testimony on the Draft Municipal Service Review for the Sacramento Suburban Water District (SSWD.) The Draft MSR has been posted on the Commission website, and distributed to affected agencies and interested parties.

Staff of the California American Water Co (CAW), an investor-owned-utility (IOU) provided a comment regarding “Status of and Opportunities for Innovation and Shared Facilities.” The comment notes the existence of system interties between SSWD and California American Water, including CAW's Arden System, which has at least 5 emergency interties with SSWD (1- metered and 4- unmetered.) Your staff has worked with SSWD to clarify this matter. The MSR has been revised to reflect this information. No additional comments have been received.

This Final Municipal Service Review is the result of collaboration with Sacramento Suburban Water District management. Your staff recognizes and appreciates the SSWD their ongoing responsiveness to keep your Commission and the public informed.
